

BARRICADE ACCESSORIES

The Estex Traffic Cone Adaptor (TCA) is designed to fit traffic cones ranging in height from 12" to 36" and has two different adaptor head sizes to securely fit a wide variety of cone top diameters. The TCA is made of 100% recycled polyethylene and is virtually indestructible. Use of the TCA with traffic cones enables the job site to be safe, secure, and have a much neater appearance.

8.1" L X 1.95" W X 1.625" D

The tape slot is 3.25 inches long and is able to accommodate any width of tape.

This Kit is designed for you to be able to create a portable barricade in the multiple configurations. The unique safety cone hanger was designed to rest on the cone. The hanger is 20" tall and brings the barricade tape above the cone for more visibility. This system can be deployed around a truck, in a substation, or to secure a hazardous zone. The benefit is that it is easy to store and is re-usable.
